Edition June 2026
Company profile

Making digital work. Making AI useful.

Company profile 2026

Alpenlogic AG supports public bodies and mid-sized companies in modernising their processes, data and services. We advise, we build, and we operate - with a team that has worked on more than 120 projects since 2016.

Our services

Consulting
Digital strategy, process analysis, target operating models, procurement support for IT tenders.

Software engineering
Web platforms, integrations, APIs, legacy modernisation, quality assurance.

AI solutions
Document intelligence, knowledge assistants, forecasting, evaluation and monitoring of AI systems.

Cloud & operations
Managed services, monitoring, service desk, security patching, 24/7 on-call for critical systems.

Selected references

Client (sector)	Project	Year
Cantonal administration	Digital counter and e-forms platform	2024
Regional hospital group	Document classification with AI	2025
Municipal utility	Smart-meter data platform	2023
Industrial SME	Predictive maintenance pilot	2025
University institute	Research data portal	2022

Quality, security and recognition

Our management systems are certified to **ISO 27001** (information security) and **ISO 9001** (quality). We are a member of the Swiss ICT association and a partner of several cloud providers. Awards: Swiss Digital Award finalist 2023; 'Great Place to Learn' label 2025.

Sustainability

We use renewable electricity in our offices, offer public transport subsidies and compensate unavoidable business flights. Our team volunteers two days per year for local digital education projects.

Careers

We are regularly looking for software engineers, data scientists and consultants. Apprenticeship positions (ICT specialist) start every August. Send your application to jobs@alpenlogic.example.
